7. Type [http:// Instance Name.appspot.com/app](http://Instance Name.appspot.com/app) and see the output.
8. Enter the magnitude value you want to search.
8. Output:

Earthquake Data!

21	61
22	52
23	41
24	20

Week wise Earth Quake data of magnitude 5

Week Number	Number of Earth Quakes Occurred in Week
20	149
21	100
22	100
23	103
24	36

Week wise Earth Quake data of magnitude greater than 5

Week Number	Number of Earth Quakes Occurred in Week
20	22
21	25
22	11
23	19
24	3

Show places where earthquake was following magnitude

5

9. Now to the corresponding value the places will be displayed with mag value you have inserted.

10. Output:
